

The Simplicity 16

Carport, Canopy and Veranda Solution

The Simplicity 16 is an easy to install canopy, carport and veranda solution that has been developed with speed of installation, durability and cost in mind. As our most economical system, it allows you to supply a low-cost shade and shelter solution for your home. It can project up to 4m and has a light weight roofing system, which is ideal for creating cost.

The stylish, modern design gives a look that is second to none, enhancing any building's aesthetics. It also offers unbeatable structural performance, simply out performing all other carport and canopy systems pound for pound.

This high end veranda and carport system offers a variety of solutions for:

- ✓ Verandas
- ✓ Smoking Shelters
- ✓ Porch
- ✓ Carports
- ✓ Walkway Canopies
- ✓ Patios

Benefits of The Simplicity 16 System

All-Aluminium System: The Simplicity 16 is only manufactured from aluminium to offer exceptional longevity and easy maintenance.

Easy Installation: We have developed this system in partnership with one of the most prolific extrusion designers in the industry. Through his extensive expertise and using our knowledge gained from 25 years' experience, we have created the simplest fixing system possible.

Impact Resistance: Some of the systems on the market today use PVC or GRP which do not have the impact resistance of polycarbonate. We only use triple wall 16mm polycarbonate sheeting to ensure that your investment lasts and has the impact resistance and the snow loading capabilities for wherever you are in the UK.

Variable Roof Pitch: Unlike the majority of roof kits, which only offer a fixed pitch, our system offers a pitch range of 2.5 degrees to 22.5 degrees to give you that little bit extra.
