

The Simplicity Xtra

Glass Veranda, Carport & Canopy System

Our Simplicity Xtra veranda is a stylish canopy, carport and veranda system that is covered with a choice of 6mm toughened glass or 6mm self-cleaning glass. This stylish and robust structure has been designed with the best possible materials to produce a long-lasting shade and shelter structure that looks great in any setting.

It is available with many upgrades including integrated lighting, heating and traditional post sleeves to enhance your outdoor experience and extend your usage.

This contemporary glass veranda and carport system adds a high class appearance to any building and can be covered with UV activated self-cleaning glass, making it perfect for those that want a stylish system, with a minimal maintenance.

The Simplicity high end veranda and carport system offers a variety of solutions for:

- ✓ Verandas
- ✓ Outdoor Porch Areas
- ✓ Carports
- ✓ Garden Canopies
- ✓ Walkway Canopies
- ✓ Patios

Benefits of The Simplicity Xtra System

All-Aluminium System: Fully manufactured from aluminium to offer exceptional longevity and easy maintenance.

Easy Installation: We have designed this system with one of the most prolific extrusion designers in the industry and have created the simplest fixing system possible including an easy glaze roof system for a quick and efficient installation.

Cover Large Areas: You can cover large areas with the Simplicity Xtra due to the unlimited length and 4m projection (glass length).

Three Roof Options: Including 6mm toughened glass and 6mm toughened self-cleaning glass. Additional costs apply for the self cleaning glass which features a UV activated special coating that breaks down organic dirt which is then washed away by the rain.

Textured Colour Options

RAL 7016
